

Home access to Online Databases

The Palmerston North City Library subscribes to many pay-to-access online databases. Library members can use most of these for free from their homes, or on any internet-connected computer in the world, 24 hours a day, seven days a week.

This means you no longer have to be in the Library to have access to magazines, reference books and other high quality resources.

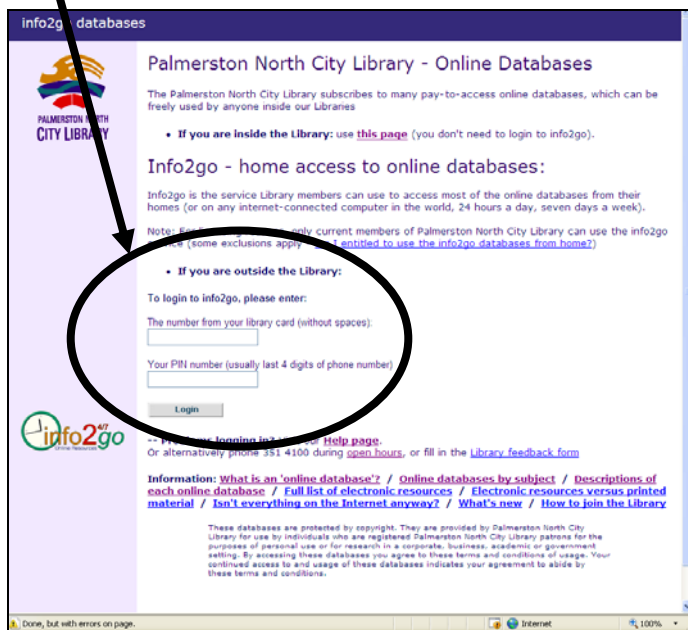

Using info2go to access the online databases from home:

1. **Go to the Library webpage:** <http://citylibrary.pncc.govt.nz>
Click on the 'Online Databases'

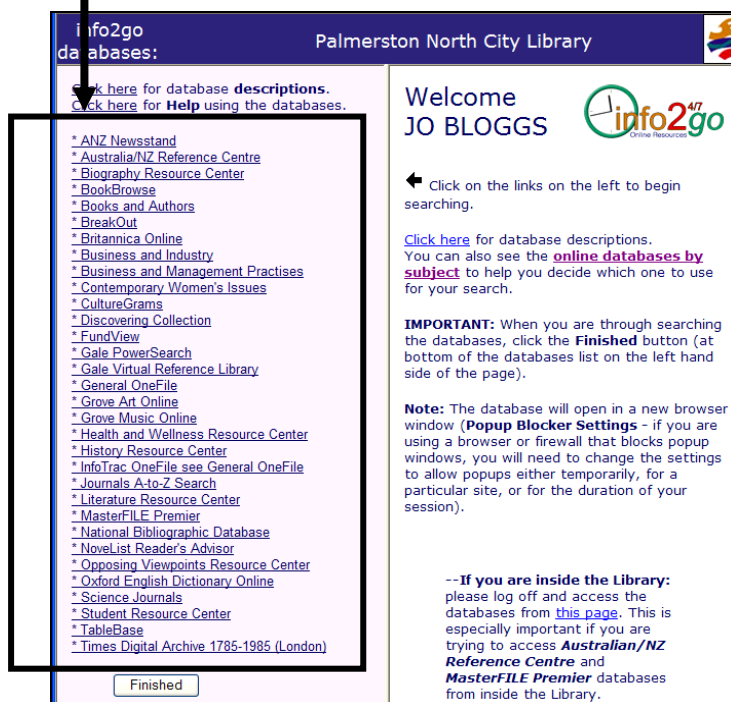

2. **Login:** Type in your full Library barcode number (the full number with no spaces) and your PIN number, then click Login.

- Your PIN is usually the last four numbers from your home phone number (unless you have chosen your own PIN)
- To check your PIN, contact the Library during open hours: <http://citylibrary.pncc.govt.nz/opening-hours.html>

3. **Click on the name of the database that you wish to use.**

This will open in a new window. (Popup Blocker Settings - if you are using a browser or firewall that blocks popup windows, you will need to change the settings to allow popups either temporarily, for a particular site, or for the duration of your session).
